Map #

DEC, Environmental Cleanup & Brownfields
 Site Priority, Statutory Classifications:

Code: 2
 The classification assigned to a site at which:
 1. the disposal of hazardous waste has been confirmed and the presence of such hazardous waste or its components or breakdown products represent a significant threat to the environment or to health as described in subdivision (a) above; or
 2. hazardous waste disposal has not been confirmed, but this site has been listed on the Federal National Priorities List (NPL).

Code: 4
 The classification assigned to a site which: has been properly closed but that requires continued site management, consisting of operation maintenance, and monitoring. Under certain circumstances, this classification may be assigned to a site where remedial activities have been completed, but conditions at the site have not been brought into compliance with applicable regulatory standards.

Code: A
 The classification assigned to a non-registry site in any remedial program where work is underway and not yet complete (i.e., Brownfield Cleanup Program, Environmental Restoration Program, and Voluntary Cleanup Program sites). This may be used for manufacturing Gas Plant sites or those being remediated under an EPA Cooperative Agreement.

Code: C
 The classification used for sites where the Department has determined that remediation has been satisfactorily completed under a remedial program (i.e., State Superfund, Brownfield Cleanup Program, Environmental Restoration Program, Voluntary Cleanup Program). State Superfund (Registry) sites must have completed all active operation, maintenance, or monitoring requirements before they can be delisted and made class C. Non-registry sites may be made a class C after successful completion of all required construction or after no further action remedy has been selected by the Department. These sites will be ongoing maintenance and periodic certification of institutional/engineering controls (IC/ECs).

DEC Streams Layer 2007
 Waste Water Treatment Plant Outfalls interpreted from 2007 air photo,
 DEC Hazardous Waste Sites as of 1/2010
 Land use is based on the 5/2008 Steuben County Property Class Codes:
 112 = Dairy Farm, 720 = Gravel Mining,
 710 = Manufacturing, 712 = Industrial
