# **TELECOMMUNICATIONS: PLANNING FOR OUR FUTURE**

**What do we need to know about telecommunications technologies?**

Join us for this first-in-the-region event! The session will discuss telecommunications technologies, 5G deployment, FCC regulations, local regulation “dos and don’ts”, what type build-out is necessary, application review, and why it is all important for us to understand.

The event will end with a roundtable discussion between attendees and speakers in order to gain a full understanding of topics.

### **LOCATION:**
